Enzymes and microbes: Nature's solutions at industrial scale

Agriculture

Animal Health and Nutrition

Bioenergy

Food and Beverage

Household Care

Leather

Pulp and Paper

Textile

Wastewater Solutions

Novozymes is a market leader

14.4bn DKK sales
24.2% ROIC
28.3% EBIT

6,500+ employees
6,500+ patents
700+ products

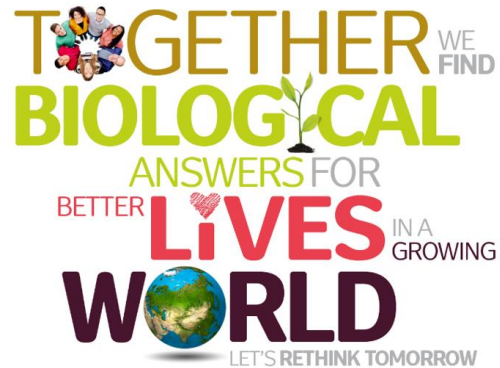

48% market share
30+ industries
140+ countries

Novozymes' business and sustainability journey

**In 2014, we used the draft SDGs
as inspiration for developing our
new purpose and strategy**

In 2014, we used the draft SDGs as inspiration for developing our new purpose and strategy

Our purpose

novozymes 

OUR STRATEGY

PARTNERING FOR IMPACT

FOCUS AREAS

RALLY FOR CHANGE

Form partnerships and networks with customers, consumers, organizations and governments to make a sustainable difference.

LEAD INNOVATION

Excite our customers by delivering more significant innovation, tailored to their local markets.

FOCUS ON OPPORTUNITIES

Prioritize the customers, markets and activities that hold the biggest opportunities for creating impact.

GROW PEOPLE

Support Zymers and people around us in unfolding their full potential.

novozymes 

Today, SDGs are integrated...

- We conduct **SDG assessments** of operations, products and innovation pipeline to understand SDG negatives and positives
- We use **SDG impact potentials** to attract partners for innovation pipeline acceleration and impact
- We use **SDG challenges** to define targets for our open innovation platform (HelloScience) and to rally innovators to help fill our innovation pipeline
- To **maximize positive** SDG contributions from our solutions, and to **minimize negative** impacts from our operations, we have established high level **SDG Governance Boards**
